

Vehicles on Campus Sidewalks and Grounds

The overall appearance and first impressions of campus grounds, maintenance of sidewalks, and general safety, is very important to all of us and to our academic mission. In the interest of these things the following rules shall apply:

1. Any vehicles on university grounds or sidewalks not having an approved authorization slip will be fined in the amount of \$30 by the Transit and Parking Department, and may be towed at the owner's expense.
2. Authorization, given on a case by case basis for legitimate university business, must be obtained from the Director of Facility Operations and Maintenance (or designee) at the Facilities Management Department (521 S. Razorback Rd.). Approval will be given in the form of an authorization slip (at no cost) to be secured on the inside of the passenger side windshield of the authorized vehicle. Exceptions will be considered for university business requiring heavy materials or equipment to be moved into or out of a building that has no loading dock. The vehicle may not remain parked after unloading or loading but must be moved off the sidewalk immediately. No exceptions will be considered for motorcycles or scooters. Small scooters may be pushed on the sidewalk to a bicycle rack if it is located within 50 feet of the street for the purpose of parking the scooter. The scooter may not be ridden on the sidewalk. This policy does not apply to a "major construction site". For assistance call (479)-575-3926.
3. At The Gardens (450 S. Razorback Rd.) during times of Home Football game weekends only, authorization will be given by Men's Athletics Department. For assistance call (479) 575-3755.
