CHALKBOARDS

CONSULTANT DESIGN GUIDELINE

CHALKBOARDS. Specify factory prefabricated chalkboards, having a minimum of 24-gauge porcelain fired steel faced in accordance with standards of Porcelain Enamel Institute, 1/4" hardboard or plywood core with minimum of .005 aluminum backing. Light reflectance factor on face should be greater than 5% and less than 20%. Specify chalk trays with end caps. All chalkboards are to carry standard lifetime guarantee. Chalkboards shall be equal to Claridge Products Company, Vitracite 1700 Series, “Korak,” Mark I.

Accessories. Specify one map hook for each two feet of map rail, including extensions. Map rails require end caps. Chalkboard trim shall be factory-mounted, equal in weight, and similar in design to Claridge Products and Equipment Company Series I. Chalkboard and tack board faces to be on same plane. Mount all chalk and tackboards on continuous aluminum angle top and bottom, concealing attachment of angle to wall. Maximum of 18" centers on fastenings.

SECTION 10 11 23
TACKBOARDS

CONSULTANT DESIGN GUIDELINE

Tackboards. Specify factory prefabricated tackboards with a self-healing vinyl impregnated fabric face applied to a minimum of 1/16" thick cork, then applied to a moisture resistant, vermin-proof pulpboard that has good tack holding qualities, giving a net thickness of 1/4" for the board. Tackboards shall be equal to Claridge Products “Fabricork” No. 1550.
Accessories. Specify one map hook for each two feet of map rail, including extensions. Map rails require end caps. Tackboard trim shall be factory-mounted, equal in weight, and similar in design to Claridge Products and Equipment Company Series I. Chalkboard and tack board faces to be on same plane. Mount all chalk and tackboards on continuous aluminum angle top and bottom, concealing attachment of angle to wall. Maximum of 18" centers on fastenings.

SECTION 10 14 00
SIGNAGE

CONSULTANT DESIGN GUIDELINE

SIGNAGE. Submit a complete signage proposal for approval by Facilities Management Planning Group. Specify door openings throughout the building furnished with a door number and room name where applicable. The UofA recommends a solid acrylic plastic or magnesium plate sign.

Architect is responsible for graphics and signage submittal. Coordination with a signage supplier suggested. In order to develop a signage budget, a signage supplier will be needed.

ADA Signage. All signage shall meet ADA requirements. All signage required by ADA shall be specified.

Letters. Specify letters on buildings to be equal in style to Helvetica medium.

END SECTION

SECTION 10 14 16
PLAQUES

CONSULTANT DESIGN GUIDELINE

Plaque Information. Facilities Management will furnish plaque information to the architect for use in plaque design. Submit plaque shop drawings to Facilities Management Planning Group for approval prior to fabrication.

Size: 24in x 38in
Material: zinc (if zinc is not available, aluminum is an option . . . but most manufacturers should be able to work with zinc)
Finish: text – horizontally brushed (shiny); top band – horizontally brushed (shiny); background – sandblasted if zinc (a dull gray), painted if aluminum (dull gray)
Texture: NONE . . . should be SMOOTH, not pebbled, leatherette, etc.
Border: NONE (except for wide band at top . . . see artwork)

Owner-Furnished Material: Soap dispensers, for installation by Contractor.

WASHROOM ACCESSORIES

A. Toilet Tissue (Roll) Dispenser: ( Rev 05/03/2019 )

NON ADA
1. Basis-of-Design Product: Georgia-Pacific ( #567444A ) is the Owner's standard. No substitutions will be permitted.
2. Description: Four-roll dispenser.
4. Capacity: Designed for 5-inch- diameter tissue rolls.
5. Material and Finish: Transparent plastic, black.
   See Appendix B – Tissue Dispenser ( Non ADA )

ADA
1. Basis-of-Design Product: Georgia-Pacific ( #56784A ) is the Owner's standard. No substitutions will be permitted.
2. Description: Two-roll dispenser.
4. Capacity: Designed for 5-inch- diameter tissue rolls.
5. Material and Finish: Transparent plastic, black w/ translucent gray slide door.
   See Appendix B – Tissue Dispenser ( ADA )

B. Paper Towel (Roll) Dispenser: PTD

1. Basis-of-Design Product: GP sofPull, MFG Part # 59489, mechanical Hardwound Roll Towel dispenser is the Owner's standard. No substitutions will be permitted.
2. Description: Pull-down towel operation with autocut mechanism
4. Minimum Capacity: Non-perforated roll towels up to 8 inches in diameter and 8 inches wide.
   See Appendix C – Towel Dispenser
C. Soap Dispensers:

Soap dispensers will be supplied by Facility Management, Building Services group and installed by the contractor. Do not install on the mirrors, but leave a 6 inch wide by 12 inch high space over or next to the sink for the soap dispenser. Install one dispenser for every two sinks.

D. Custodial Closet:

Provide (4) shelves with hanging brackets in each closet. Shelves to be 12 inches deep by 48 inches wide with first shelve 12 inches from the floor.

FABRICATION

A. Keys: Provide universal keys for internal access to accessories for servicing and resupplying. Provide minimum of six keys to Owner's representative.

Facilities Management at the University of Arkansas has adopted the Rubbermaid Square Brute container – 40 gallon size as their standard recycling bin. Three different colors are used: White bins for white office paper, grey bins for mixed paper and blue for collecting mixed cans and bottles.

Dimensions for these containers with the wheel castors and without a lid are as follows:

- Depth = 23.5”
- Width = 28” (with handles)
- Height = 33.5” (with castors)

Note: Castors are not shown, but the UofA wants container with castors typ for all bldg's. For recycle bin cabinets ( info/dwg's , see standard recycle cabinet dwg & info.

Compact® Side-by-Side Tissue Dispenser

**Installation**

1. Affix a mounting bracket (#54019 sold separately) with the arrow on the brackets pointing to the left or right, ensuring that the top is level before securing the mounting bracket to wall with two anchored screws using the keyhole slots. Mounting should comply with ADA guidelines. Compliance is the responsibility of the installer.

2. With the front cover open, press unit onto mounting bracket and slide the dispenser to the left or right to engage the hooks on the mounting bracket as indicated. Close the cover.

> Numerous holes and slots have been molded into the back of the dispenser housing if direct-to-wall mounting is desired.

**Operation**

This tissue dispenser utilizes coreless tissue rolls available at GPPRO.com. The dispenser’s cover hinges at the bottom and opens a full 180 degrees. An internal mechanism incorporated into the dispenser door prevents access to the second roll before the first roll is depleted. This feature helps to reduce waste by preventing the partial use of rolls. For questions regarding this dispenser or for replacement parts, please call: 1-866-HELLOGP (1-866-435-5647). www.gppro.com

Bracket Mount | Montaje del soporte | Montage sur des supports

1. Assemble two (2) mounting brackets (#54019 sold separately) by connecting the sides as shown. For accessories or replacement components, please call: 1-866-HELLOGP (1-866-435-5647).

Ensamble dos (2) soportes de montaje (n.º 54019, se venden por separado) conectando los lados como se muestra. Para obtener accesorios o piezas de repuesto, llame al siguiente número: 1-866-HELLOGP (1-866-435-5647).

Assemblez deux (2) supports de montage (no 54019; vendus séparément) en reliant les côtés comme illustré. Pour des accessoires ou des pièces de rechange, veuillez composer le 1-866-HELLOGP (1-866-435-5647).

2. With top level and the arrows on the bracket pointing up, secure assembled bracket to wall with four anchored screws using the keyhole slots indicated. NOTE: Top of the bracket should be at least 4.25" below any grab bars or other objects to ensure clearance for loading.

Con la parte superior y las flechas del soporte hacia arriba, asegure el soporte armado a la pared con cuatro tornillos fijados en las ranuras perforadas indicadas. NOTA: La parte superior del soporte debe estar al menos 4,25" por debajo de cualquier barra de agarre u otros objetos para asegurar que queda el espacio necesario para cargar el papel.

Avec le dessus du support de niveau et les flèches pointant vers le haut, fixez le support assemblé au mur avec quatre vis ancrées dans les fentes indiquées. REMARQUE : Le dessus du support devrait être à au moins 4,25" (10,75 cm) sous toute barre d’appui ou autre élément afin de faciliter la recharge du distributeur.

3. Fit dispenser on bracket engaging all clips as indicated. Lock into place by gently pulling down until it clicks into place.

Ajuste el dispensador sobre el soporte fijando todas las trabas como se indica. Asegúrelo en su lugar presionando suavemente hacia abajo hasta escuchar un “clic”.

Installez le distributeur sur le support en engageant toutes les attaches, comme indiqué. Fixez-le en place en tirant doucement vers le bas jusqu'à ce qu'il se mette en place avec un clic.

4. Installation is complete. For instructions on how to load tissue, proceed to the last page.

Terminó la instalación. Para obtener instrucciones sobre cómo colocar pañuelos de papel, consulte la última página.

L’installation est terminée. Pour obtenir des instructions sur la manière de charger le papier, reportez-vous à la dernière page.

For questions regarding this dispenser or for replacement parts, please call: 1-866-HELLO GP (1-866-435-5647).

A With front cover open, remove roll-transfer sled by pulling straight up.

Con la cubierta frontal abierta, extraiga el soporte para cambio de rollo tirando del deslizador de rollos hacia arriba.

Avec le couvercle avant ouvert, retirez le support de transfert en le tirant vers le haut.

B Rotate arm on roll-transfer sled. Replace tissue rolls so tissue dispenses from top, then return arm to original position.

Gire el brazo del soporte para cambio de rollo. Cambie los rollos de papel colocándolos de manera que el papel se desenrolle por la parte superior del rollo y luego coloque el brazo en su posición original.

Tournez le bras du support de transfert. Mettez les rouleaux de papier de façon à ce que le papier arrive par le dessus puis remettez le bras dans sa position originale.

C Align roll-transfer sled with side rails and return to dispenser.

Alinee el soporte para cambio de rollo con las guías laterales y vuelva a colocarlo en el dispensador.

Alignez le support de transfert avec les guides et remettez-le dans le distributeur.

D Close cover. The Compact Quad® Vertical 4-Roll Tissue Dispenser is now ready for operation.

Cierre la cubierta. El dispensador de pañuelos de papel vertical de 4 rollos Compact Quad® ya está listo para usar.

Fermez le couvercle. Le distributeur vertical à quatre rouleaux Compact Quad® peut maintenant être utilisé.

Direct Mount | Montaje directo | Montage direct

1 Position unit on wall so that the top is level.
   With the front cover open, mark screw locations where indicated. NOTE: Top of the dispenser should be at least 3.25" below any grab bars or other objects to ensure clearance for loading.

Ubique la unidad sobre la pared de manera que la parte superior quede recta. Con la cubierta frontal abierta, marque las ubicaciones de los tornillos donde se indica. NOTA: La parte superior del dispensador debe estar al menos 3,25" por debajo de cualquier barra de agarre u otros objetos para asegurar que queda el espacio necesario para cargar el papel.

Placez l’unité au mur avec le dessus de niveau. Avec le couvercle avant ouvert, marquez les emplacements de vis comme indiqué. Remarque : Le dessus du distributeur devrait être à au moins 3,25" (8,25 cm) sous toute barre d’appui ou autre élément afin d’en faciliter la recharge.

2 Secure unit to wall with four anchored screws in locations previously marked.

Asegure la unidad a la pared con cuatro tornillos colocados en las ubicaciones marcadas previamente.

Fixez l’unité au mur avec quatre vis ancrées dans les emplacements marqués précédemment.

3 Close Cover. Installation is complete. For instructions on how to load tissue, proceed to the last page.

Cierre la cubierta. Terminó la instalación. Para obtener instrucciones sobre cómo colocar pañuelos de papel, consulte la última página.

Fermez le couvercle. L’installation est terminée. Pour obtenir des instructions sur la manière de charger le papier, reportez-vous à la dernière page.

ADA compliant when installed according to ADA installation instructions.

Cumple con lo establecido por la ADA (Ley de Estadounidenses con Discapacidades) si se lo instala siguiendo las instrucciones de la ADA.

Conforme aux normes de l’ADA (la loi américaine en faveur des personnes handicapées) lorsqu’installé selon les instructions de l’ADA.

Note: See Appendix B-Tissue Dispenser ( Non ADA ), Install Dim’s ( Rev 05/03/2019 ) for mounting dim’s.

SofPull® Mechanical Hardwound Roll Towel Dispenser

Mechanical towel dispenser provides operationally efficient hand drying while helping minimize the risk of cross-contamination.

Description:

This dispenser delivers a single towel, saving the cost, the mess and the waste associated with traditional folded towels. Soft, high-quality towels are 1000' on a roll for a level of efficiency folded towels just can't match. This towel dispenser is a perfect choice for all offices who desire a quick, convenient hand drying that minimizes the risk of cross-contamination.

Features & Benefits:

- **Hygienic:** No buttons, levers or cranks helps improve hygiene by eliminating touch points
- **High Capacity:** Dispenses 1000 foot primary roll plus stub roll for efficiency and reduced maintenance time versus folded towels
- **Portion control:** Dispenses one 11 inch towel to help lower cost-in-use
- **Features a stub roll transfer to help minimize run out**
- **Emergency feed wheel helps ensure dispensing if towel is not present**
- **Easy & quiet operation with sleek styling creates a look that is highly professional and sure to impress**
- **Easy installation and maintenance**
