

ADDENDUM NO. 2

April 5, 2019

REQUEST FOR PROPOSALS

AUDIO/VISUAL SYSTEMS

Indefinite Delivery Indefinite Quantity (IDIQ)

UNIVERSITY OF ARKANSAS, FAYETTEVILLE

The following supplement is hereby made to the project referenced above:

FOR BIDDER'S USE / CLARIFICATION:

A calculation error was discovered in the Excel Pricing Spreadsheet that was posted as part of Addendum 1. This error affects the "Summary of Uninstalled Component Costs by Type" sheet in the Excel spreadsheet, and involved the discount percentage calculation of the "Discounted UA Price" column in the spreadsheet. This calculation has been corrected in order to correctly calculate the Discounted UA Price field. As an example, if in the previous excel spreadsheet, a discount of 20% was offered, the spreadsheet would calculate the price as 20% of the list price, instead of 20% off the list price. This has now been corrected in the spreadsheet that is being included with this Addendum.

No other modifications to the proposal documents are included in this Addendum. All proposals are still due at 3:00 on Tuesday, April 9th, 2019 as originally listed in the RFP.

This addendum must be acknowledged in the space provided on the Proposal Form.
